INSTRUCTIONS FOR USE

1. Keep the operating knob at 'OFF' position while lighting the burner, First open the regulating valve provided on the Cylinder, light the match stick or lighter over a burner top and then turn the knob in 'ON' position.
2. While putting off the Stove, first close the regulating valve of the Cylinder and then turn the Stove knob off.
3. Always keep the Cylinder in vertical position. Do not tilt or bend the Cylinder while in use.
4. Always remember that rubber tube should not have any bend or cut.
5. Do not attempt to dismantle or repair the stove yourself.
6. Avoid overflow of cooking stuff which not only put off the flame but may block the pores of the burner.
7. It is advisable to use original ISI marked rubber tube.
8. Always use genuine regulator having ISI mark.
9. After the cooking is over always clean the stove properly and keep the pores of the burner open by cleaning it once in a week with a hole size needle.
