Product introduction

Pro- Blender

It is a high power multifunctional household blender which can blending, mixing and grinding different foods. It can make fruit juice, soy milk, salad dressing, fruit paste, soup ,grain power and different cuisine. One machine can be used for multiple machines.

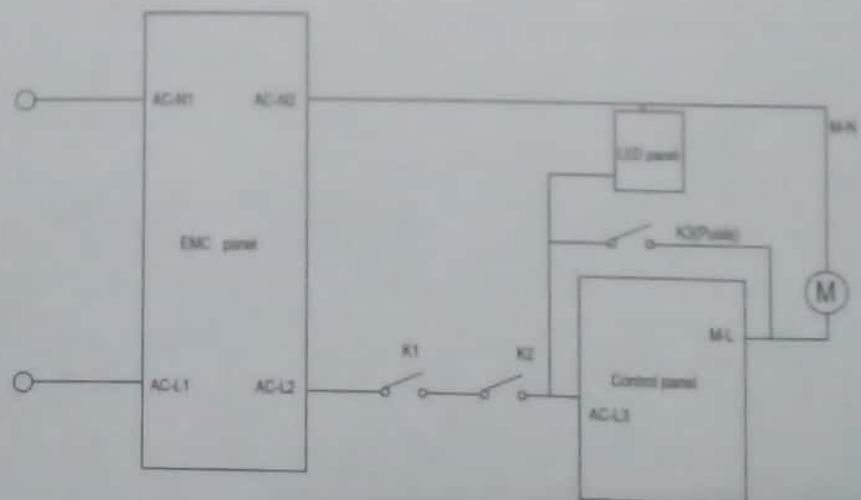

Basic Parameter

Rated Voltage : AC220V-240V

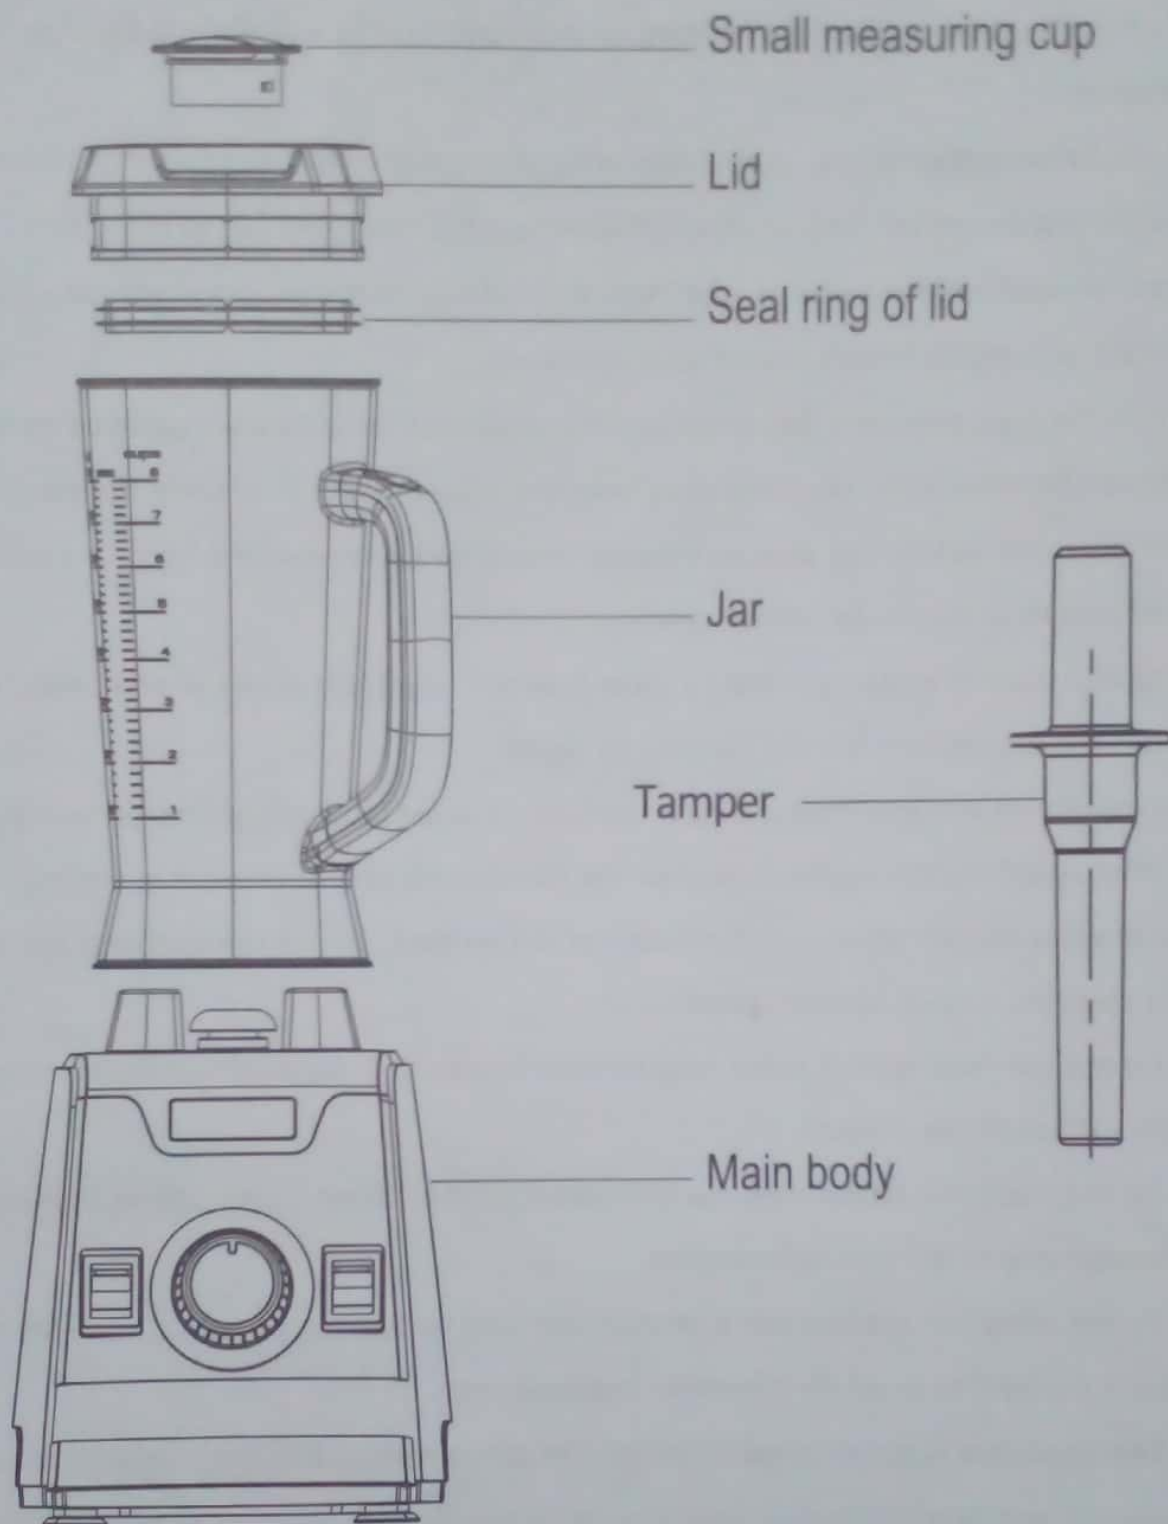

Rated Frequency : 50Hz/60Hz

Rated Power: 1100W

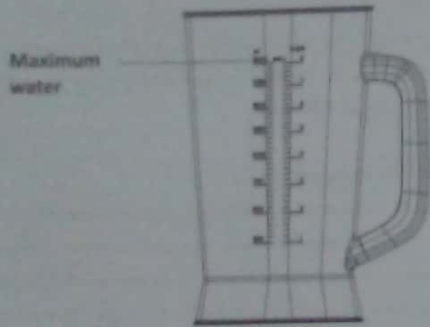

Circuit diagram

Product and Spare Parts

Maximum water level diagram on the jar

Attention: when using the blender, the maximum capacity is 2L/8

cup(s). Please do not exceed the maximum scale of the mark, avoid food overflow

Measuring cup: avoid water overflow and measure the ingredients.

Seal rings of lid: avoid water overflow

Knob: for selection functions

Lid: Cover the cup body to prevent liquid overflow when the product works

Jar base: Holding cup

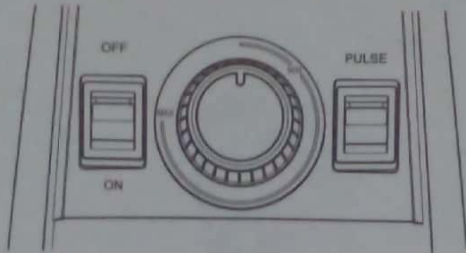

Main body: The main components of the product are electrical appliances, microcomputer control panel power source to provide power

Usage

- Before using the product for the first time, please clean up the parts that contact with food (please refer to clean& maintenance)
- Before using the product for the first time, please put 1000ml clean water into the jar, choose "Pulse" button to work 4-6 times. After that, pour out the water.

3

Switch board

- There are two switch, including 'Pulse' ; 'Power' switch.
- Stepless control switch: 'MIN' to 'MAX'

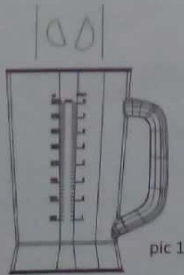

Operation instruction:

1. Connect the machine with suitable voltage and frequency (AC220V-240V 50/60Hz 1100W). Connect with power: when the machine connects with the power.

Notice: if the blender lid is not fixed suitably on the jar, the machine could not work.

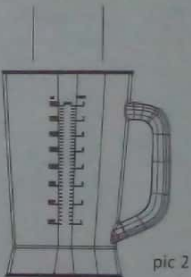

Usage instruction

1. Put the food into the jar: cut the food as the size of 2CM*2CM*2CM cube, clean the food and put into the jar. Please refer to the receipt (pic 1) for the ratio of food and liquid.

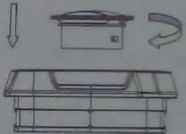

4

2. Put the water into the jar: Please refer to the receipt (pic 2) for the ratio of food and liquid.

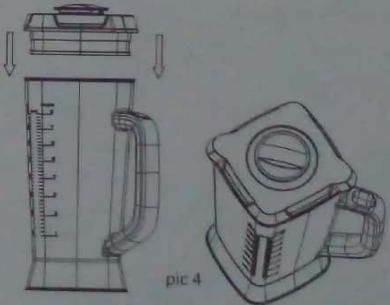

pic 2

3. Install measuring cup: Put the measuring cup on the lid and fix it clockwise on the lid. Please refer to pic 3 as followed.

pic 3

4. Install the jar: Put the lid with measuring cup on the jar, fix it clockwise till the arrow marks on measuring cup match arrow marks on lid. (Refer to pic 4).

pic 4
